Can work during blackouts.

Skills

- Typescript, JavaScript, HTML5, CSS3, Sass (SCSS)
- React, Next.js, Vue.js, Angular.js, Redux, Zustand, React Query, i18next, etc.
- Node.js, Git, Webpack, Vite, Babel, Eslint, Prettier
- Google Firebase, Fetch, REST API, Web sockets
- Material UI, Bootstrap, Tailwind, Framer Motion, dnd kit, BEM
- Jest, Cypress
- Basic OOP understanding, basic C++/C# knowledge

Summary

Motivated developer with experience in game development, mobile apps, and web design. Created a Subway Surfers-style game in Unity (C#) and a fitness app in Flutter. Currently focused on Front-End development and building full-fledged web projects using Google Firebase. I have a Bachelor's degree in Software Engineering, providing a solid programming and problem-solving foundation. I have a good understanding of server-side rendering (SSR), which is beneficial for SEO. Furthermore, I am passionate about learning new technologies and creating user-friendly, effective digital solutions.

Experience

Freelance

Frontend Developer

01/2024 – Present

- Developed modern web interfaces using React.js, Next.js, and TypeScript.
- Optimized web application performance, reducing load time by 30%.
- Integrated REST APIs to enable dynamic application functionality.
- Implemented responsive design to enhance user experience on mobile devices, achieving 100% responsiveness.
- Participated in a group project as a Full-stack Developer, utilizing Firebase, Git, GitHub, and Jira for efficient collaboration, and successfully implemented new features to enhance application functionality.

Oschadbank

Technical support

Kyiv, Ukraine | 2023 – 2024

- Provided technical support to clients regarding client-bank services, resolving technical issues and offering consultations.
- Worked with CRM systems to manage customer requests.
- Efficiently handled a high volume of inquiries while ensuring excellent customer service quality.
- Collaborated with cross-functional teams to address complex technical problems.
- Developed problem-solving skills, patience, and adaptability—essential qualities in software development.

Education

Bachelor's in Software Engineering

State University of Infrastructure and Technologies, 2018-2022

Frontend course at Mate Academy (Git, HTML, CSS, JavaScript, Typescript, React, Web)

Languages

- **Ukrainian** (Native)
- **English** (Intermediate)

Portfolio

ToonJoy

Website for watching cartoons of various genres with Ukrainian dubbing. Features include content categorization, search functionality, responsive design, and Firebase integration for authentication and data storage. Built using Next.js, React, and Zustand.

React Apple Catalog

It's a responsive product catalog app built with React. It allows users to view different models of phones, tablets, accessories, view detailed information, add products to favorites, cart and filter products according to various criteria. The project uses numerous modern technologies and web development packages.
